

Christ Communities MBTI® Instructions

There is a \$25 assessment fee for the **Spiritual Type** workshop which can be paid on our [donate](#) page. If you have never taken the MBTI, you can take it online free by carefully following the directions below.

To Take an Assessment:

Using a web browser (i.e., Microsoft® Internet Explorer) access the CPP Web Administration site.	http://online.cpp.com
Enter the following Account Login	2myassessment
Enter the following Account Password	psalm100
Leave the “User ID” blank unless you are returning to complete an assessment.	Click: <i>Login</i>
From the menu, select the MBTI® Step I (Form M)	Click: <i>Begin</i>

- You will be prompted to fill out a demographics page.
 - Choose the batch name **Spiritual Type**.
 - Provide the requested demographic information.
 - Click **Continue Now!**
- Follow all directions to complete your assessment.
- Be sure to answer the questions as spontaneously as possible.
- Respond to every item.
- After completing the assessment, click **Done** at the bottom of the page.
 - If taking a break from an assessment, be sure to click the done button so your responses will be saved and can be recovered when you resume.
 - Write down the ID number so that you can resume and/or take additional assessments using the same client ID.
 - Please DO NOT close your browser without following the specific instruction or your assessment will not be submitted.
 - After you have clicked “Log Out” you may close your browser session.
- Return to the assessment menu and follow the same process if you need to complete another assessment.
- If you have any questions during the self-administration process please contact paul@christcommunities.net. Thank you for your participation.

Technical Requirements:

For this site to function properly, your Internet browser must meet the minimum requirements of Microsoft® Internet Explorer Version 5.0 or higher or Netscape® Navigator® Version 4.72 or higher. The site may not function or display properly in other browsers or browser versions (such as Netscape 6.0). In general, browser providers (such as AOL) are supported as long as they are using the base applications noted above. If you need help to verify your browser version, [click here](#). While it is not a system requirement to do so, we recommend that you update your browser from either www.microsoft.com or www.netscape.com.
